

Health claims

12th International Workshop on Nutrition & Health Claims Europe 10 years of Food, Nutrition & Health Claims - Status Review and Future Outlook

Crowne Plaza Hotel Le Palace, Brussels, Belgium

Friday, February 5, 2016

The Nutrition and Health Claims Regulation was published end of 2006, almost ten years ago. The least one can say is that results have been disappointing so far with just a selection of claims approved, and thousands rejected or sent back for improvement, not to mention the several thousand botanical claims set on hold. And what about implementing Nutrient Profiles?

In this 12th International Workshop, Health Claims Europe will bring a detailed situation analysis with integrated debate time, followed by a look forward.

This new and exciting one-day interactive workshop is directed at Legal Counsels, Management, Regulatory, Marketing and development staff of European Food Industry and companies interested in importing food products in the European Union.

The workshop offers an excellent opportunity to meet the experts and network with colleagues.
