13th International Workshop on Nutrition & Health Claims Europe Status Review – Way Forward

Le Plaza Hotel, Brussels, Belgium
Tuesday, May 29, 2018

The Nutrition and Health Claims Regulation was published end of 2006. Early this year, the REFIT evaluation should be published. Over hundred claims have been approved, but thousands were rejected or sent back for improvement. Critical areas for food health such as pre- and probiotics use have been severely restricted. Several thousand botanical claims are set on hold. But improvement is on its way with better guidance and understanding of what is needed to make a solid health claim request. Also new improvements are seen in neighbouring legislation areas such as Novel Foods, Labelling, Medical Devices and the many gray areas in between food (supplements), botanicals and medicine.

In this 13th International Workshop, Health Claims Europe will bring a detailed situation analysis with integrated debate time, followed by a look forward.

This new and exciting one-day interactive workshop is directed at Legal Counsels, Management, Regulatory, Marketing and development staff of European Food Industry and companies interested in importing food products in the European Union.

The workshop offers an excellent opportunity to meet the experts and network with colleagues.
